

APPENDIX G

Physical Security of Arms, Ammunition, and Explosives

G-1. All commanders of Army Reserve, National Guard and ROTC units will coordinate physical security plans with the local Physical Security Office 72 hours prior to training on South Post.

G-2. When securing weapons in "gun racks," commanders will be responsible for providing armed personnel with live ammunition to protect Category I and II arms, ammunition and explosives (AA&E). No waivers or exceptions will be authorized.

G-3. In accordance with AR 190-13, paragraph 1-5, commanders are responsible for ensuring reasonable security measures are taken to safeguard property that may be vulnerable to criminal acts or other disruptive activities.

G-4. A physical security inspection and audit of AA&E will be conducted when deployed in the field for training to ensure these items are protected.

G-5. Commanders responsible for AA&E will establish a training program for those personnel responsible for guarding stored weapons with live ammunition. Army Regulation 190-11, 190-14, and Appendix C, USARC Pamphlet 190-1 apply.

G-6. AR 190-11, paragraph 2-10, outlines a training program for responsibility and accountability of AA&E.

G-7. All armed guard personnel will be armed with appropriate weapons and ammunition at the discretion of the commander concerned. The provisions of AR 190-14 apply.

G-8. Only approved locks will be used to secure weapons in the field gun racks. Key controls are listed in AR 190-11, paragraph 3-8.

G-9. Each weapon issued for field training or any other reason will be carried on the person of the individual to whom it is issued at all times or it will be properly safeguarded and secured. Except during emergencies, weapons will not be entrusted to the custody of any other person except those responsible for the security of operational weapons.

G-10. Chains used to secure racks will be heavy-duty hardened steel, galvanized and of at least 5/16-inch thickness.

G-11. Personnel assigned to guard stored weapons will have available instant radio communications for security checks and in the event of any unforeseen emergencies.
